

# ACCELERATED LEARNING SKILLS PROGRAM

Age : 9 to 13

## WHAT IS THE PROGRAM ABOUT?

This is a program designed by integrating **NLP Learning Strategies and Methods ; Whole Brain Learning Methods and ; NLP Principles and Processes** to enable one to accelerate ones learning.

It is a Six month one on one program: **That empowers your child with skills** and strategies to learn easily and faster ; **Apply** all the learning skills to each subject at school to produce amazing results and ; **develop empowering beliefs** about learning and feel confident.

## Who is this Program for ?

1. Does your child want to learn how to learn fast and easily?
  2. Does your child who is studying well want to achieve even better results at school, go to the next level?
- or**
3. Do you find that your child is unable to study well and that it takes a longer time to revise or study their portions?
  4. Do you want your child to feel confident about themselves in the context of learning and exams?
  6. Do you want them to be able to study on their own and plan their own studies before exams?
  7. Do you find your child studying sincerely but is unable to recall or finds it difficult to express entirely what they have learnt or understood while writing answers?

Then you may find this program useful!

## **Accelerated Learning Skills**

The Accelerated Learning Skills are methodologies that help students not only to learn more rapidly and easily but also enable them to understand better. Applying these methods help students learn naturally and rediscover the Joy of Learning.

### **What is Whole Brain Learning?**

The breakthrough discovery is knowing now that our brain has two upper hemispheres rather than one. The two sides of our brain the left and the right brain have different functions. Studies show Geniuses like Einstein, Leonardo Da Vinci and Mozart used both sides of their brain to unlock their potential. When both hemispheres are engaged in learning we call it Whole Brain Learning.

### **What is NLP?**

Neuro Linguistic Programming -NLP,  
is a Revolutionary approach and understanding in  
HOW we think and behave.

# What is NLP - Contd

NLP helps in reprogramming one's mind for faster and easier learning, for overcoming fears, for increasing confidence, for enriching relationships and for achieving greater success.

NLP enables one to choose their mental, emotional and physical states and helps one to communicate effectively & powerfully with themselves and with others.

NLP provides tools and skills for the development of excellence, and establishes a system of empowering beliefs and presuppositions about our thoughts, our communication and effective change.

## Some of what your children will learn

### **1. Spellings and Vocabulary using the NLP Visual**

**Strategy:** Learn the unique NLP spelling strategy that Excellent spellers use. Also learn the latest strategy to learn vocabulary. These techniques will help in easily recalling spellings and meanings.

**2. Accelerated Reading Skills:** We have designed the Accelerated Reading process combining NLP with the some methods in speed reading and principles of accelerated learning. This helps students to read faster and at the same time it amazingly improves their Comprehension, Concentration and Recall.

**3. Exercises for Whole Brain Learning:** Students will learn to enhance whole-brain learning by doing a series of movements that activate the brain. These activities make all types of learning easier and are specially effective with academic skills.

**4. Math Strategies:** Students will learn strategies to better learn basic math skills and also to develop the ability to conceptualize and understand Math making it easy and fun.

**5. How to develop a Super Memory:** The Students will learn how to effectively store, retrieve and recall information. They will also learn to apply Memory principles like power of Association and Imagination. Different memory systems like Linking and Pegging will be taught.

**6. Whole Brain Note Making or Mind Maps:** Students will learn to make notes using whole brain methods. This will help students to learn and review chapters easily. They will also learn to use Mind maps as a thinking tool.

**7. Writing Skills and Verbal Public Speaking Skills:** Students will learn how to verbalise their thoughts in debates, elocutions, class recitals. They will also learn how to write answers for questions and be creative while writing essays, stories,

## **8. We will be using NLP to help children to**

- Learn to enjoy Subjects Easily
- Prepare well for Exams
- Boost Confidence & Self Esteem
- Develop Inner Motivation to study
- Enhance the Power of Focus
- Develop Empowering Beliefs in academics
- Manage time for studying
- Set Academic Goals and Achieve them.

## **The Process**

- The children will first learn the Accelerated learning Skills and Strategies as mentioned above.
- Along side they will begin to access empowering beliefs about learning.
- I will then coach them to use these skills for two chapters in each subject so that they know how to apply them and also discover their learning style.
- Then they will be coached to develop their ability to communicate in written as well as verbal communication, Eg: Writing essays, composition, narrating stories, speaking on a Topic.

## Program Details

**One On One weekly 60 - 90 minutes online session**

**Duration : Six Months**

**Age group : 9yrs to 13 yrs**

**Fee : 25,000/-**

This Program has been designed using skills and methodologies that have been developed by experts. Since 2004 this program has successfully enabled many children to become independent confident learners.
